

DNAKE Cloud Platform Release Notes of Version 2.3.1

1. Introduction

In this update, we have upgraded partial cloud platform functions. The optimizations include adaptive adjustment of batch template file formats and enhanced readability of note content.

This update also optimized the unlocking logic of offline QR codes and the photo entry guidance on the face collection page.

Cloud Platform Version: 2.3.0 to 2.3.1

2. Optimization

- Improve the photo entry guidance on the face collection page.
- Optimize the automatic device synchronization mechanism.
- Optimize QR code unlocking logic

3. Bug Fixes.

- Fix some bugs
